### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: No prior art discloses the adjustment of the pad resistance by means of varying the number of vias, where said pad resistance forms part of the electrostatic discharge protection circuit. The previously cited art, Huang et al. (US 6,762,466) instead seeks to provide redundancy of the conductive path to ensure conductivity between the pad and separately formed electrostatic discharge protection circuit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
